

COUGH LOK AND SECURE LOK By Hawksley Technology

The Hawksley Cough Lok has been designed to allow patients to cough with minimal pain even in the presence of major Thoracic or abdominal wounds.

After a simple explanation patients are able to use the Cough Lok unaided and with confidence. The wound is supported giving a sense of security and therefore improving the morale of the patient.

All the available energy can be put into coughing.

Suitable for almost all body shapes and sizes it is 10cm wide with plastic covered metal loop handles at each end.

The smaller handle slips easily through the larger one and the Velcro fastener enables it to adhere in any position with any degree of tightness giving support against the strongest cough.

Part No. 05025-00 Cough Lok.

Length 126cm

Part No. 05026-00 Cough Lok.

Length 147cm

The Hawksley Secure Lok is similar to the Cough Lok but is double the length to allow it to be used for securing patients to tilt-tables, trolleys.

Part no. 05027-00 Secure Lok.

Length 252cm
